Video Monitoring Policy

To ensure the safety and security of all children, staff, parents, and visitors, as well as the security of our daycare facility, our childcare Center is equipped with a 24-hour video surveillance system, and we have installed security cameras in all classrooms. Cameras are used to help promote the safety and security of children, staff and our center and a peace of mind of our parents. Because we respect the privacy of all children, parents, and staff in our daycare center, our 24-hour video surveillance system/security cameras are for internal purposes only. Due to the privacy concerns for parents/guardians are not permitted to record or screen shoot our free service of video monitoring. Some parents in our child classroom do not authorized their child to be photograph or videotape their child, same way we ask all our parents to respect these parents' choice. If this policy is not followed, termination of childcare services may occur.
